

# TOS 2021 Annual Meeting Continuing Medical Education Information for Learners

## Accreditation and Credit for Physicians

The Obesity Society is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Obesity Society designates this blended learning format activity for a maximum of 94.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity. This activity combines a live webinar format with optional add-on pre-recorded modules.

## Learning Objectives

1. Apply the latest recommendations for evaluation and treatment; tailor intervention strategies based on patient characteristics such as age or metabolic or behavioral phenotype; understand the differences between weight loss and weight loss maintenance.
2. Understand the evidence-based science regarding neuroendocrine, environmental, endocrine, microbiota and/or cognitive behavioral mechanisms regulating energy balance and body weight. Apply that knowledge to develop and implement treatment options for adults and pediatric patients with overweight, obesity or obesity-related comorbidities.
3. Implement appropriate strategies for diagnosing adolescent and pediatric obesity, evaluate current treatment options and emerging therapeutics and provide care and treatment to adolescent and pediatric patients accordingly. Teach evidence-based strategies for obesity prevention in the pediatric and adolescent population.
4. Apply lessons learned about the impact of: nutrition and obesity initiatives to reduce health disparities, and federal nutrition and obesity policies on health disparities.
5. Apply new knowledge related to dietary intervention and physical activity from the perspectives of Metabolism and Integrative Physiology, Neuroscience, Intervention and Clinical Studies, Population Health, Clinical/Professional Practice, and Policy/Public Health.

6. Incorporate knowledge about coding for reimbursement into the clinical practice of health care providers to support their ability to treat the underlying disease of overweight and obesity. Incorporate knowledge about best practices to develop and run effective clinics that treat overweight and obesity.

## Commercial Support

Educational grants in partial support of the conference were received from Pfizer, Inc., Rhythm Pharmaceuticals, Inc., and W.L. Gore & Associates, Inc.

## Faculty and Planning Committee Disclosure Information

The Obesity Society asks all individuals involved in the development and presentation of Continuing Medical Education (CME) activities to disclose all financial relationships with ineligible companies<sup>1</sup>. This information is disclosed to CME activity participants. The Obesity Society has procedures to mitigate all conflicts of interest. In addition, faculty members are asked to disclose when any unapproved use of pharmaceuticals and devices is being discussed. TOS requires additional disclosures beyond the ACCME definition of an ineligible company. These include food, weight loss, and supplement industry disclosures. In the list below, the nature of the relationship and company are followed by the industry of that company.

### Speaker Disclosures:

Name	2021 TOS Annual Meeting Speaker Disclosures
Abu Dayyeh, Barham (MD, MPH, FASGE)	Consulting Fee relationship with BFKW (Medical Device); Boston Scientific (Medical Device); and Medtronic (Medical Device).  Contracted Research relationship with Apollo Endosurgery (Medical Device); Endogastric Solutions (Medical Device); and USGI (Medical Device).  Stock Options relationship with Endogenex (Medical Device).
Agarwal, Khushbu (PhD)	No Relevant Financial Relationships
Agurs-Collins, Tanya (PhD, RD)	No Relevant Financial Relationships

<sup>1</sup> An ineligible company as defined by the ACCME is one that is not eligible for ACCME accreditation, in other words those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Examples of such organizations include: 1) Advertising, marketing, or communication firms whose clients are ineligible companies, 2) Bio-medical startups that have begun a governmental regulatory approval process, 3) Compounding pharmacies that manufacture proprietary compound, 4) Device manufacturers or distributors, 5) Diagnostic labs that sell proprietary products, 6) Growers, distributors, manufacturers or sellers of medical foods and dietary supplements, 7) Manufacturers of health-related wearable products, 8) Pharmaceutical companies or distributors, 9) Pharmacy benefit managers, 10) Reagent manufacturers or sellers.
